

Managua, June 25th, 2009

Dear Mr. Oettinger:

It was a pleasure to meet you at our office during your recent visit to Nicaragua to evaluate the possible location of a baseball academy in Central America.

After learning about the plans of the International Baseball Association, I would like to express our support for the project in order for it to become a reality in Nicaragua. PRONicaragua as the official promotion agency of our country has the willingness to cooperate in promoting the project and act as a facilitator in obtaining the required support for its development.

We consider projects of this nature important for Nicaragua, because of the benefits it offers in terms of generating new jobs both directly and indirectly, as well as for the establishment of activities that offer an opportunity for our society to develop in a healthy environment.

Sincerely,

Javier Chamorro
Director Ejecutivo
